

**Dear Parents,
Namaste!**

In view of the prevailing heatwave conditions and the advisory issued by the Health Department, Government of NCT of Delhi, the school is implementing the following precautionary measures to ensure the health and safety of all students:

1. Water Bell Initiative:

A “Water Bell” will be rung at regular intervals (every 45–60 minutes) to remind students to drink water and prevent dehydration.

2. Hydration Measures:

Students must carry sufficient drinking water to school daily. Safe and cool drinking water is

also available at multiple points within the school premises.

3. Awareness Sessions:

Teachers will conduct short awareness sessions during class hours to educate students about preventive measures, the importance of hydration, and identification of symptoms related to

heat stress. Immediate first aid and medical attention will be provided wherever required.

4. Buddy System:

A buddy system is being introduced wherein students will be paired to look after each other's

well-being during school hours.

5. Outdoor Activities:

All outdoor physical activities will be strictly avoided until further notice .

We request parents to ensure that their wards come to school well-prepared for the heat and remain adequately hydrated.

Your cooperation is highly appreciated in helping us ensure the safety and well-being of our students.

**Warm regards,
APS**
